Budapest, 18th.—Fifty three fresh cases of cholera here yesterday and 23 deaths. The epidemic is still active, but most of the patients recovering. Thanks to the precautions taken, the epidemic is likely to decline.

London, 18th.—Eight new cases and three deaths in last 24 hours. The epidemic is still active, but most of the patients recovering. Thanks to the precautions taken, the epidemic is likely to decline.

London, 18th.—Political agitation is increasing, and from the tone of the papers, something fresh is expected shortly, and changes in the highest Government circles here.

London, 18th.—The Council of State has consented to naval works being entrusted to private shipyards. This news has given great satisfaction to shipbuilders.

The scarcity of small silver coins causes great inconvenience in retail business. In spite of the precautions adopted, the exportation of silver coins continues. Government is preparing still more energetic restrictions to foil the speculators.

Brussels, 18th.—The Senate Committee will propose the rejection of the Universal Suffrage Bill. This will revive the agitation in Belgium. Already several meetings of working men are announced.

Vienna, 18th.—It is feared that the rupture of relations between Greece and Roumania will give rise to complications in the Balkans.

The Governments of Austria and Germany will use their influence with Roumania to give satisfaction to Greece, in order to restore friendly relations between them.

London, 18th.—The Times in a leader, recognizes the improvement in the Argentine situation and expects a settlement of its Foreign Debt that will be acceptable to its creditors and itself, adding that the gold premium will gradually fall.

Nevertheless, it thinks it would be absurd to divert the lien attached to some of the loans, and trusts that Dr. Pavia will be able to restore Argentine credit. The tone of the article is very friendly towards the Argentine Republic.

Paris, 18th.—The Chambers have opened. At the first sitting of the Deputies there was a lively debate about the Carnau strike, and Government was charged with want of energy in dealing with them.

Premier Loubet defended Government showing that the influence of agitators and exiles of the workmen had prevented an arrangement. His proposal that Government should arbitrate had been accepted.

(Per House Agency.)
Berlin, 17th.—There is a rumour that Emperor William has signed Capitulary Military Bill increasing the effective of the army and reducing the compulsory service to two years.

Paris, 18th (evening).—The extra session of the Chamber has opened today. Government was questioned about the Carnau strike, and proposed arbitration, to which the company had agreed. After a long debate a motion that the Law should be revised was passed.

Athens, 17th.—The Greek Minister in Bucharest has been summoned home in haste, as the Roumanian Government has notified him of the expiration of a Greek citizen, which he left by will to his own Government.

Rome, 16th.—The Italian cruiser Bausan has been ordered to Venezuela.

OUR CITY FATHERS.
The Corporation of Buenos Ayres waited on President Senz Peña on Monday, to urge upon him the expediency of the Government handing over to the municipal treasury those portions of city taxes which at present go to the National revenue. In his reply the President declared his intention to do his best to reach the city from the chronic condition of impotency.

According to official statement the municipal revenue last year amounted to 7,150,000 currency, and the expenditure to 8,070,000, leaving a deficit of 920,000, exclusive of the interest due to London bondholders. Intendente Baki, in his farewell address, last week, stated that the revenue for the current year up to date was 7,700,000, and the expenditure 7,700,000, showing a deficit of 2,000,000, from which it would appear that the financial position is much worse this year than last. In spite of so alarming a state of affairs the Corporation has recently made a convention with the London bondholders, assigning over to them 30 per cent of the gross receipts from 1st January next, to be paid into bank day by day.

If the municipality has at present a deficit of 2,000,000 yearly it is absurd to suppose that the city can carry out the above compact, and we do not hesitate to censure most severely the devil-may-care manner in which the compact was concluded, without consulting the citizens and tax-payers. The payment of 30 per cent to the bondholders on last year's revenue would represent a sum of \$2,100,000, and if this were deducted from the municipal income, the balance would be only \$5,600,000, to meet an expenditure of \$9,700,000 or even more.

This kind of financing can only result in confusion and bankruptcy. It is unworthy of any body of men who pretend to take charge of public interests.

As a matter of abstract theory the Corporation is quite right in maintaining that all city taxes should go to city purposes, but it must be remembered that the National Government gives a quid-pro-quo in return for the revenue derived in this way, since it pays the City Police and gives large subsidies to the city charities. The city taxes collected by the National Government are as follows:—

Property tax.	Licenses.
1800 4,240,000	1,968,000
1891 3,449,000	1,908,000

The distribution of the above sums for 1891 was as follows:—

Property-tax.	Licenses.
Municipality 1,005,000	688,000
School-board 1,319,000	—
Nat. Treasury 1,850,000	1,240,000
Total... 3,449,000	1,908,000

Let us suppose that the Nat. Treasury hands over to the Municipality, amounting to \$2,305,000; we cannot expect that the Nat. Government will continue to pay the police, fire-brigade and public charities here.

of Stafford, to restrain him from cutting and wooding on the Trentham estate.

At Pittsburgh Colonel Hawkins, Lieutenant-Colonel Streeter, and Surgeon Sims, of the 10th Regiment, have been indicted for assault and battery in connection with the punishment inflicted by them upon Private James, who was hung up by the thumbs for thirty minutes for having shouted, "Three cheers for the assassin," when the news of the attack upon the life of Mr. Frick the manager of the Carnegie mills, reached the camp at Homestead.

From Pittsburgh it is reported that Mr. Lovejoy, the secretary of the Carnegie Steel Company, has been arrested on a charge of having aggravated the workers to riot during the recent dispute at the mills. The warrant was issued at the instance of the leaders of the men, and after a formal examination the accused was liberated on bail in the sum of \$50,000.

Mr. Parker Descon, in an interview with a pit representative, has been already causing immense damage. The Fomento Committee of the Chamber of Deputies is preparing a report on the proposed works on the port of Montevideo.

It is rumored the portfolio of Finance will be taken by Jose Luis de la Torre, that of War and Marine by Col. Aurelio Rodriguez, and that of Interior by Antonio Maria Rodriguez or Perez.

LATEST FROM MONTEVIDEO.
Tuesday Evening.
Telegrams from Trinidad y Tres report that the buildings of the Columbian Exposition should be closed on the Sabbath.

Of course, the action of the board yesterday can have no effect, for it is nullified by acts passed by both the State Legislature and Congress. It is exactly opposed to the act passed at the last session of the New York Legislature, which reads as follows:—

"The exhibit of the State of New York at such Exposition (the World's Columbian Exposition) shall not be opened to the public on Sunday, and the general managers herein provided for shall take such steps as may be necessary to carry this provision into effect."

The action of the board is further nullified by the act passed by the last Congress, which reads as follows:—

"And it is hereby declared that all appropriations herein made for, or pertaining to, the World's Columbian Exposition are made upon the condition that the said Exposition shall not be opened to the public on the first day of the week, commonly called Sunday, and that the members of the B. A. Rowing Club 'rise' to it or what."

The comparison of the Lujan waters is beautiful—especially when I am told "Putney needs require to judge this. There is something grimly mysterious about this advice."

I think every reader of the STANDARD will "rise" to the "Tiger rowers" to explain their letter, or at all events some parts of it which certainly require explanation.

But to reply to the intelligible remarks made by the "Tiger rowers," I do not for a moment suggest that the B. A. Rowing Club should be a philanthropic institution, but that jointly with other clubs it should endeavour to hold a regatta here in Buenos Ayres as well as at Tigre, so that those men who are in training for the rowing may have an opportunity of again rowing a few days later at another regatta—besides providing good sport for all comers and spectators.

John Houghman has received the Republican nomination for Assembly in Clinton County, last year, through the efforts of the Assemblyman Hall, Democrat, was elected. It is a sure Republican county this year.

The Republicans of Saratoga County have nominated J. Frank Terry for Assembly. The fraudulent appointment takes a member from the county and his result will be an overwhelming victory for the Republicans.

Last year the democrats stole the seat in the Assembly that belonged to David Allen Monroe, Jr., who was honestly elected in the First Onondaga District, and seated Patrick J. Ryan. Both have been renominated, and Mr. Monroe will win by the biggest majority ever given a candidate in this district.

Fifteen of the necessary sixteen districts voted to hold county democracy primaries by Assembly districts. The primary law is necessary, the primaries have been held in the past, and the result will be an overwhelming victory for the Republicans.

The Republicans of the Third District of Pennsylvania have endorsed the candidate of Congressmen Henry W. Blair, who is an independent candidate, as a rebuke to Henry Bossism.

Ex-United States Senator Henry W. Blair has been nominated for Congress in the First New Hampshire District. The district is represented by Frank McKinney, Democrat, who received 21,732 votes against 20,499 for David Arthur Taggart. The ex-Senator will have a majority this year of not less than a thousand.

THE CROP REPORTS.
The Government crop report for the first of August is not encouraging for the ordinary standpoint. It is evident that the crops of the year are not so large as has been expected. Perhaps the official report may prove more impressive, as it has proved erroneous in previous years, but there is little probability that the official statement will be found sufficient to permit of yield of ordinary magnitude.

As to wheat, it is true the report indicates a great decrease, in spring wheat only about 3 per cent. The report is a very important change in the quantity produced, but it is expected with some apparent reason that the report would indicate a better condition at the end than the beginning of July, and in fact it does. Some allowance has been made for the supposed improvement. The official report appears to indicate that the yield of wheat this year will be somewhat less than the crops of the year are not so large as has been expected. Wednesday, October 15th 1892.

Gold opened very weak this morning, but closed steady, slightly above last night's closing rate. About twelve hundred ounces of gold were sold at the first ring; the price opened at \$50.2 1/2, rose to \$50.70, and closed at \$50.50. The balance of the hundred ounces were sold at \$50.60 and \$50.65. Premium.

Patriotic Bonds were somewhat firmer this morning, but the speculation was not so good for them. The closing hands at 73 to 73.30. Internal Bond fell to 67. Catalinas opened weak at 68.30, and closed at 68.30. The 9.10. Municipal Consols fell from 61.4 to 61. Old Gas shares rose to 60. L. Rio Grande shares rose to 60. Obligations of the Banco Constructor were steady at 1.

The market was dull at yesterday's trading. Discounts continued easy. The market for foreign exchange at the business effected in stocks and shares at the first ring to say:

The great topic of the B.J.L. is the Bank question, and notwithstanding the strong opposition of the majority of the league in favour of State banks and the continuation of the Banco de la Nación, the feeling of the market is opposed, and no argument, even by the most theoretical economists, can really be put forward which exists against State banks. Banco de la Constitución is the new title proposed, and it is generally expected that it will never go down in a market such as this, where the losses caused by the failure of the Banco de la Nación are so gigantic. It is really a coincidence that the very first question that the new Government is to raise is the question of the liquidation of a new State bank admittedly managed and earning millions, and which has been the main support of the strongest element in helping the Government and the country out of its financial difficulties. The new banks are centered in the strict and honest principles of Minister Romero, and the triple alliance of the Banco de la Nación, the Entero Gobierno has increased

SHEEP DIP

ACARICIDE
TRADE MARK
We the undersigned, hereby bear testimony
to having witnessed the dipping
of sheep made with the above dip on two
flocks of sheep badly infested with scab.
At the end of June we testify to have found
the sheep clean and healthy and the scab
entirely eradicated. We noticed no signs
of discoloration. We have every confidence
in recommending the "Thornton Sheep Dip" as one
of the safest and most effective dips that
has ever come under our notice.
